EXPERIENCE

Imagebay

3D Artist, Imagebay

Location

10/2024 - 07/2025

- Created high-quality 3D models for various projects, including architecture, furniture, and technical assets and game assets
- Optimized existing models to middle/low-poly for performance efficiency
- Developed and applied textures, including PBR materials
- Assembled and lit scenes in Unreal Engine, creating cinematic sequences
- Unwrapping, texturing
- Designed and optimized models for web-based applications

3D Artist

Visualisator

Location

05/2024 - 10/2024

- Produced high-end interior and exterior visualizations
- Applied advanced post-processing techniques to enhance render quality
- Leveraged AI tools to refine and improve final visual outputs

3D Artist

3D Artist, Unreal Engine Artist

Location

08/2017 - 01/2024

- Modeled and optimized buildings, furniture, decor, and technology assets
- Composing scene in UE with materials, lights, creating cinematic
- Unity - VR trainings
- Preparing models for Web: modeling or optimization, baking textures, setting up scene in Web
- Created detailed UV maps, baked PBR textures, and generated high-quality renders
- Creating clothes in Marvelous Designer
- Unwrapping, texturing
- Baking textures: create PBR textures + AO
- Creating simple animation, camera animation
- Rendering with Corona render

VisEndengine Digital Solutions

VisEndengine Digital Solutions

Location

03/2017 - 08/2017

- Creating models
- Set up and render scene
